

## Procedures to access Databricks Self-Paced courses

Hello,

Please visit the following page to access our Self Paced Training bundle:

<https://academy.databricks.com/pathway/INT-AL-FREE-SP>

*You **must** use the link provided above to access the training.* The bundle is not in the public catalog.

- Press the **REGISTER** button, which will add the bundle (or, learning pathway) to your shopping cart.
- If you have an existing Databricks Academy account, log into that account to check out. If you don't have an existing account, you must create one before checking out.
  - If you have forgotten your password, you can easily reset it from the login screen.
  - If you are creating a new Databricks Academy account then you **MUST** use your corporate email address. (Use of gmail/hotmail and other generic email accounts can restrict access.)
- When checking out, please use the following coupon code to make this training **FREE**:

**Coupon Code:** **Learn\_From\_Home**

- You will receive an order confirmation via email and within your Databricks Academy account.

### To access your training course:

- Log in via [Databricks Academy Account Log In](#)
- Once logged in, go to your "My Learning" dashboard, by clicking **MY ACCOUNT** in the upper right.
- Locate the "Free Customer/Partner Introductory Learning" pathway from within your "My Learning" dashboard. Open the pathway, and you'll be presented with a number of self-paced courses.
- Some courses contain materials (Databricks notebooks) to be used in your Databricks workspace. Other courses are video-based. Carefully read and follow the instructions for each course to complete your training.
- Upon completion of any course that uses notebooks, you must return to Databricks Academy to mark the course complete. Once you do so, you will be issued with a Proof of Completion certification that is found within your Databricks Academy account (see "Awards" tab). You can still access this training under your account by selecting "All" training.
  - With video-based courses, course completion and the issuance of your Proof of Completion are automatic.
- For any issues, please email [training@databricks.com](mailto:training@databricks.com)
